

M3.L3-Adding Fractions

AP

$\frac{2}{3}$ of the students in Mr. Beck's class say green or pink is their favorite color.

$$\frac{3}{9} + \frac{3}{9} = \frac{6}{9} \div 3 = \frac{2}{3}$$

$$2 \text{ units} = 6$$

$$1 \text{ unit} = 3$$

$$9 \text{ units} = 3 \times 9 = 27$$

There are 27 students in Mr. Beck's class

$$1 \text{ adult} + 3 \text{ adults} = 4 \text{ adults}$$

$$1 \text{ fifth} + 3 \text{ fifths} = 4 \text{ fifths}$$

$$1 \text{ child} + 3 \text{ adults} =$$

$$1 \text{ person} + 3 \text{ persons} = 4 \text{ persons}$$

$$1 \text{ half} + 1 \text{ third}$$

$$\frac{1}{2} + \frac{1}{4} =$$

$$\frac{4}{8} + \frac{2}{8} = \frac{6}{8} = \frac{3}{4}$$

$$\frac{1}{2} = \frac{4}{8}$$

$$\frac{1}{4} = \frac{2}{8}$$

$$\frac{1}{3} + \frac{1}{2}$$

$$\frac{2}{6} + \frac{3}{6} = \frac{5}{6}$$

$$\frac{1}{3} = \frac{2}{6}$$

$$\frac{1}{2} = \frac{3}{6}$$

$$\frac{2}{3} + \frac{1}{4}$$

$$\frac{8}{12} + \frac{3}{12} = \frac{11}{12}$$

$$\frac{2}{3} = \frac{8}{12}$$

$$\frac{1}{4} = \frac{3}{12}$$

$$\frac{2}{5} + \frac{2}{3} =$$

$$\frac{2}{5} = \frac{6}{15}$$

$$\frac{2}{3} = \frac{10}{15}$$

$$\frac{6}{15} + \frac{10}{15} = \frac{16}{15}$$

$$\frac{15}{15} + \frac{1}{15}$$

$$\frac{16}{15}$$
